**FULL TIME POSITION: JUNIOR CONSULTANT/ ANALYST**

**Growing cleantech consulting company specialized in energy storage**

**Position located in: Paris, France**

**I. Our company**

Clean Horizon is a consulting boutique founded in 2009 and specialized since its inception in the growing field of **energy storage for electric grids**. The company is one of the few, if not the only, boutique consultancies in the world specialized solely on energy storage.

Clean Horizon is dedicated to performing market and regulatory studies focused on energy storage as well as to helping its clients in their business development. Our customer basis is global (Europe, USA, Asia).

**We are looking for a consultant to help Clean Horizon accompany the growth of its activities**

**II. Position description**

You would join Clean Horizon as a **consultant / analyst**.

Your responsibilities as a consultant consist in executing studies performed by Clean Horizon for its clients.

**III. Candidate profile**

***Imperative:***

- **You have excellent ENGLISH writing skills**

***Previous experience***

- You hold an advanced technical degree ideally with a focus on electrical engineering (e.g. Masters, Engineers Degree)
- You have some preliminary experience in consulting and/or in the energy sector
- German speakers will be favored

***Your personality***

- You have a clear capacity to rapidly grasp the “overall picture” while maintaining attention to details
- You wish to join a small, dynamic company in a burgeoning field, to take ownership of your job and to project yourself over the long run as a pivotal person in the company
- You are curious, open-minded
- You wish to develop your business sense and commercial capabilities
- You enjoy traveling and interacting with individuals from different cultures
- You think outside of the box and enjoy proposing innovative ideas and executing them
- You are an early bird who enjoys starting his/her day early

### **Skills**

Here are some skills which will prove very useful while working for Clean Horizon:

- Vision
  - You do believe the energy world will be deeply impacted by energy storage and do want to play an active role in this new industry
- Formal skills
  - You are able to clearly present your ideas on a Powerpoint presentation
  - You have never been afraid of crunching numbers on an Excel spreadsheet
  - You have some know-how with Matlab
- Interpersonal skills
  - You enjoy making connections
  - You do enjoy keeping networks alive
- Organizational skills
  - You know how to hold a deadline
  - You are punctual
  - You are able to have autonomy in your own work
- Knowledge
  - You have a good understanding of the European energy context
  - If you have some knowledge of energy storage, it is of course a plus but we will teach you a lot so this is not a prerequisite
- Language skills
  - Your English writing and speaking skills must be flawless
  - If you speak German fluently this will be a real plus
  - No, you don't need to speak French!
  - Any other European language is a plus
  - Japanese, Korean and Chinese are a plus

### **IV. Practical details**

- The position is located in central Paris (France) in a lively neighborhood (close to the Opera)
- We usually work from our offices, but travels are frequent (one average 1-3 days per month)
- This is a full time position which comes with multiple cash and non cash benefits.
- Medical coverage is included.

### **V. How to apply**

Interested applicants should send:

- A resume in English
- A cover letter in English
